Pre-drywall and construction phase inspection agreement.

This service is priced accordingly and can reduce risk but not eliminate it. I will provide a regular home inspection utilizing the regular agreement on my web page, when the home is complete. Crawlspace will only be inspected after the plastic is installed, if the ground is wet under the house.

This is not a warranty or guarantee of the current or future condition of the property or any plan confirmation. This service is simply a way for a client to receive a list of observed problems deemed in need of repair. This service evaluates the quality, workmanship and execution of the construction. This service does not review the design features, dimensions or layout.

Client agrees that I can not be present during every critical work action and it is entirely possible to have serious problems with a new house at any time in the near or distant future. Client agrees that some items can be installed correctly when viewed and then be damaged or modified by a contractor later. Mike Schulz is not to be held liable in any form or fashion for anything at all related to this property and is not to be considered a sub-contractor on the project site.
